

ENRE youth profile

Ecology and Natural Resource Education (ENRE) is a programme of DRCSC, where we tried to work with the village based adolescents groups who do survey/study on local ecology, analyze and synthesize data, try to find out problems and take some low cost no cost measures. We have identified 10 youths who were engaged with ENRE programme for long, and now taking some initiative as leader and entrepreneur in the village. We are posting their profile along with their skillset so that all of us can use them as trainers in the schools, locality and community. We can certify that they are quite capable of handling activities/training/events regarding social/ecological issues.

- DRCSC, Education Team
